OPEN HOUSE STUDIO

Welcome — thank you for choosing Open House Studio

Made by a Realtor, for Realtors. Here is everything you are getting, and how to be up and running before your next open house.

What's included

- Unlimited open houses. Create as many events as you like, and duplicate a past one in a tap.
- Branded guest sign-in. Your logo, headshot, brokerage, colours, and welcome message on every screen guests see.
- Three ways to sign in. Hand over your tablet in locked mode, show a QR code, or email guests a sign-in link.
- Automatic thank-you emails. Every guest gets a warm, branded thank-you from you the moment they sign in.
- Lead management. Buying timeline, agent status, contact consent, interests, private notes, follow-up tracking.
- CSV export. Download your leads any time for your CRM or mailing list.
- Buyer resources. Share your private guides and documents with the guests who want them.
- Home-screen app icon. Add Open House Studio to your phone or tablet so it opens like a real app.
- Free updates. New features arrive automatically — nothing to install.

Getting started in 4 steps

1. Add your branding. Upload your logo and headshot, set your colours and welcome message in Settings.
2. Create your open house. Address, date, time, price, and a listing photo — under a minute.
3. Let guests sign in. Tablet, QR code, or emailed link. Guests take about thirty seconds.
4. Follow up. Filter your leads, add notes, and export to CSV whenever you like.

Leave a review, get a thank-you gift

If Open House Studio helps you at your next open house, I would love a short review on my website or any of my social pages. Send the link or a screenshot to herbossyshop@gmail.com and I will send you a small thank-you gift. Your feedback genuinely shapes what gets built next.
